PROFESSIONAL PROFILE

Enthusiastic second-year undergraduate specialising in Artificial Intelligence, with a strong foundation in machine learning, software development, and data analytics. Proven ability to deliver end-to-end technical projects across Python, Java, and web technologies. An active communicator and collaborative team member who contributes meaningfully to innovative, impactful solutions.

PROJECTS

Online Movie Ticket Booking System

Jan 2025 – June 2025

Java SQL IntelliJ HTML/CSS/Js

- Book My Show is a user-friendly online movie booking system that allows customers to discover, browse, and reserve cinema tickets conveniently from any device.

Hotel Management System

Feb – Mar 2026

React Node Js Mongo DB Express Js VS code

- Grand Terrace is a vibrant nightlife destination offering a premium mix of foreign and local liquor, flavorful bar bites, and a relaxed shisha experience. Designed for unforgettable nights, we bring together great drinks, music, and entertainment, including lively karaoke sessions. Whether you're here to unwind or celebrate, Grand Terrace delivers the perfect blend of energy, taste, and atmosphere.

Gym Management System With AI Diet Plan Generator

Jan – Apr 2026

Python React Node Js Mongo DB Express Js Flask Scikit-learn Pandas Docker

- SDFitness is a comprehensive gym management platform featuring FitGenius AI—a personalized, budget-aware diet plan generator that uses a custom ML model to suggest meal plans based on real-world supermarket prices (Cargills/Keells).

Cab Renting System

Mar – Apr 2026

React Node Js Mongo DB Express Js VS code

- Rentlk is a modern, user-centric peer-to-peer (P2P) vehicle rental platform designed to connect vehicle owners directly with customers in Sri Lanka. The platform enables owners to monetize their personal vehicles (bikes, three-wheelers, cars, vans, and buses) while allowing customers to rent vehicles quickly, affordably, and conveniently through a single web and mobile application ecosystem.

EDUCATION

2024 – 2028	BSc (Hons) in Artificial Intelligence SLIIT Sri Lanka Institute of Information Technology Expected Graduation: 2028
2021 – 2023	G.C.E. Advanced Level Nalanda College, Colombo
2019 – 2020	G.C.E. Ordinary Level Nalanda College, Colombo

TECHNICAL SKILLS

LANGUAGES

Python Java JavaScript
R SQL HTML CSS

FRAMEWORKS & TOOLS

TensorFlow Flask React
Pandas Scikit-learn
MongoDB MySQL AWS
Postman

SOFT SKILLS

Leadership Problem Solving
Teamwork Communication
Analytical Thinking

CERTIFICATIONS

IT Diploma Certificate
ESoft - 2021

EXTRA-CURRICULAR

2022	Badminton Captian Nalanda College
2013 – 2022	Badminton Player.
2015 – 2019	Cricket Player
